

Robot Recorder System "RoboREC"

Simple introduction of robot systems

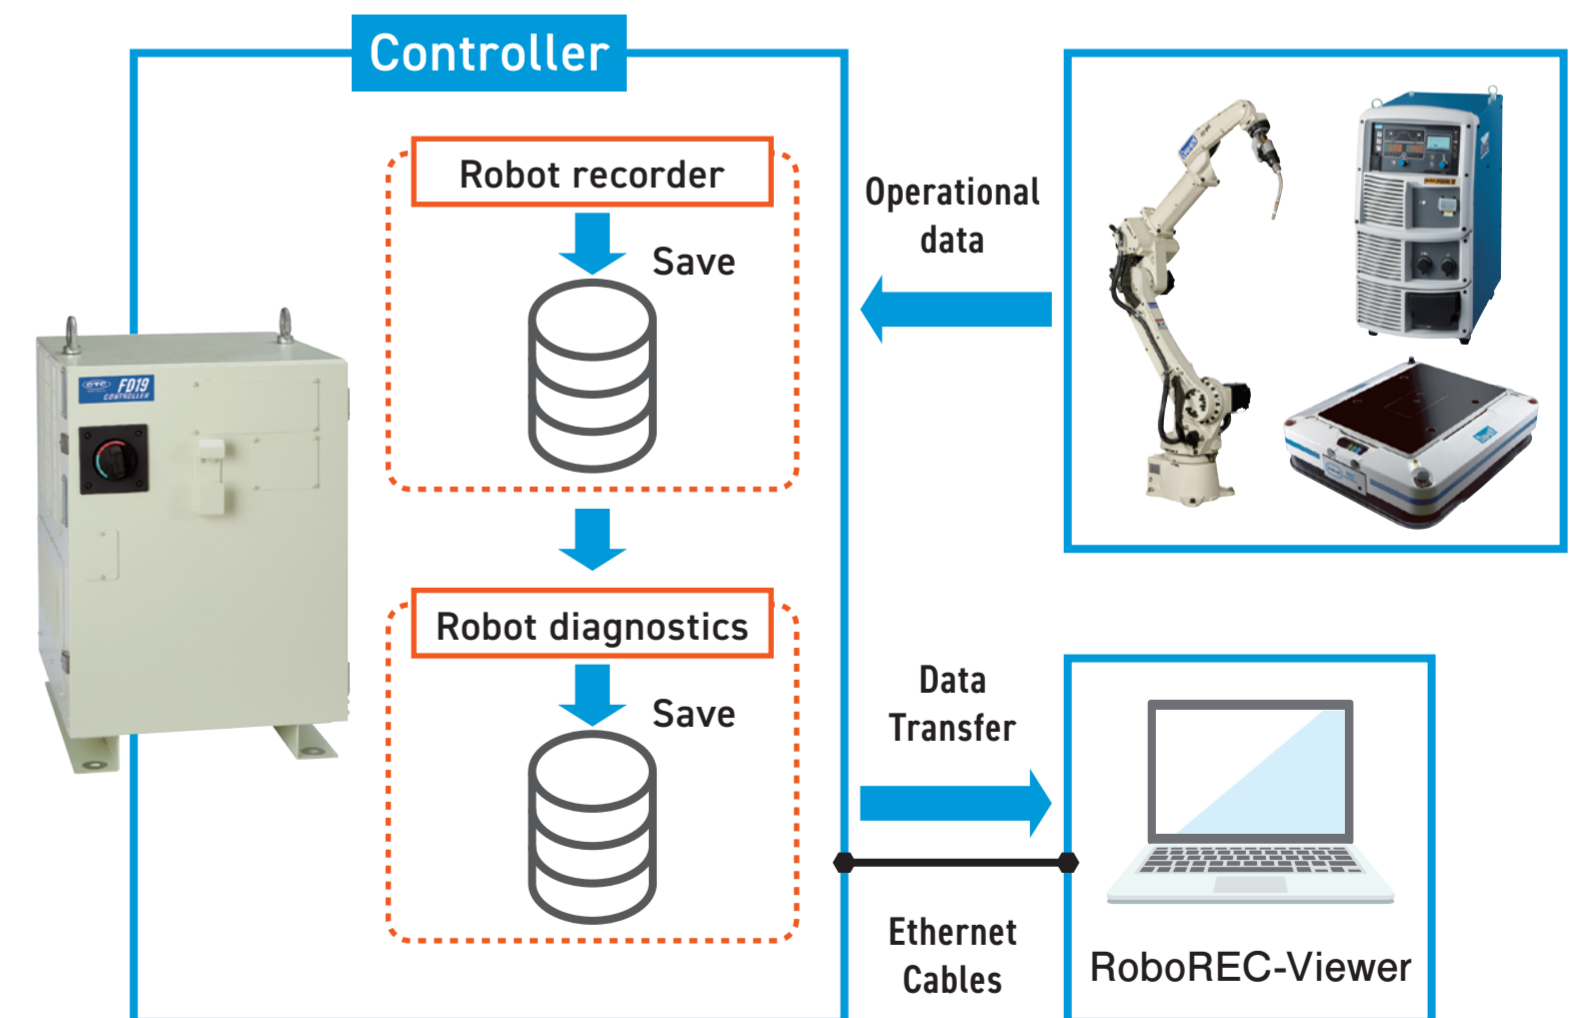

- Daihen's DX is built-in controllers from the beginning.※
- Data browsing is an ordinary personal computer.
No need for other dedicated equipment, etc.

Robot Recorder

- Data browsing is an ordinary personal computer.
No need for other dedicated equipment, etc.
- Saving of detailed data used for control is realized by eliminating waste by processing only inside the controller.

Robot Diagnostics and Welding Equipment Diagnostics

- Long-term Analysis of Data to Notify Robot and Welding Equipment Degradation
- Stability of production ensured by diagnosis before start-up

※ A separate option release code is required.
