

Welding Data can be Easily and Quickly Accessed Anywhere

Cloud-Based Welding Management for Your Entire Welding Fleet : Weld Universe

Easy to install and accessible from anywhere

- **No special software is required**, and the environment is easy to set up.
- Cloud management allows viewing from a PC or smartphone browser.
- Real-time data collection/visualization and collective sharing of operating status at each location.

Strong support for smooth factory operations

- Easy connection of welding machine and worker/workpiece by **simply passing an IC card over the welding machine**.
- In case of emergency, an e-mail is sent to the administrator to **support quick trouble shooting**.
