# Anyone Can Easily Teach Robots

Welding possible with rough teaching alone

- Directly teach positions with rough teaching
- Touch sensors and arc sensors automatically correct
- Automatically inserts welding and sensor commands with a button at your fingertips
- Easy-grip insulated safety torch

Easy verification and correction with teaching system using AR technology

- Easily check robot trajectories with the tablet TP
- Easy corrections with block programming

Automatically generate collision-avoiding programs

- Automatically generates collision-free trajectories around surrounding objects
